Email 1 from Customer A:

I have lost thousands of dollars due to incorrect bookings because you guys are sending such low rates for my listings. I have set-up a minimum price of 100, so why are my rates going below 100????!!
I need a response ASAP!

Hello [Client name],

We apologize for any inconvenience caused by the rates being below your specified minimum price.

There are certain instances where the set prices overrides the minimum specified price. Below are our observations:

1. The ‘Seasonal minimum price’ is set to $85/-
2. So, on ‘Low demand’ days it will go as low as the ‘Seasonal minimum price’
3. Also, our ‘minimum price’ is uncustomized.

Here are some actions that will help resolve the issue and ensure the accuracy of pricing recommendations and the success of your rental business:

1. Please set a customized minimum price to $100/-
2. And also update the seasonal minimum price to 100/-

If you have any additional questions or need further assistance, we would love to get on a call and help you.

Thank you for reaching out to us.

Email 3 from Customer C

I have just received my invoice and it seems a lot higher than what it should be. I have only two properties with you. Why is my invoice USD 34.98? What am I missing? It should be USD 29.98. What is the additional $5 for?

Hello [Name of the client],
Hope you are well. We understand your concern regarding the recent invoice you received, and we apologize for any confusion.

Our pricing structure considers three key factors: Region, Property Type, and Number of listings. For your two properties, the total monthly cost is indeed $34.98, as shown in the invoice and our calculator below.

Here is the tool link: https://hello.pricelabs.co/plans/

As shown in the image below, the ‘Price per month’ in the 2-5 category listings may seem $14.99/- for each, however, for two properties it begins with $19.99/- and from the second you are charged $14.99/-. It’s the $5 difference that you asked for.

LISTINGS	PRICE PER MONTH
1	$19.99
2 – 5	$14.99 for each listing after 1st
6-15	$10.99 for each listing after 5th
16 – 30	$6.99 for each listing after 15th
31 – 100	$4.99 for each listing after 30th
101 – 1000	$4.49 for each listing after 100th
1000 +	Contact Us

Please refer this page as well to learn more:
https://help.pricelabs.co/portal/en/kb/articles/how-much-does-pricelabs-costs

Also, refer to the following breakdown:

Properties	**Charges**
1st Property	$19.99/-
2nd Property	$14.99/-
Total Monthly Charges for Both Properties	$34.98/-

Rest assured, our team has carefully calculated the charges based on your specific region, property type, and number of listings.

If you have any further questions or need additional assistance, please reach out.

Thank you for your understanding.

Best,
